## Grant to Improve Water System in the Village of Buckland

Auglaize County will receive a grant to help improve the water quality in the village of Buckland. The grant is from the Community Development Block Grant, Residential Public Infrastructure Program.

The county will receive a \$600,000 grant to help the village construct a wastewater treatment plant and install 12,400 linear feet of sanitary sewer lines. The project will benefit 94 households in the village. The total cost of the project is \$2,879,012.

“Access to a reliable and safe water system improves the quality of life for those living in the village,” said David Goodman, director of the Ohio Development Services Agency.

The Community Development Block Grant Program is administered by the Ohio Development Services Agency’s Office of Community Development.
